

AI Production Roadmap Tracker

Week 16: PCA, KMeans, DBSCAN + Env & Git

- Day 1 learning complete
- Day 2 learning complete
- Day 3 learning complete
- Day 4 learning complete
- Day 5 learning complete
- Day 6 learning complete
- Weekend project complete
- Git push & repo structured

Week 17-18: Neural Nets + Docker

- Day 1 learning complete
- Day 2 learning complete
- Day 3 learning complete
- Day 4 learning complete
- Day 5 learning complete
- Day 6 learning complete
- Weekend project complete
- Git push & repo structured

Week 19-20: CNN/RNN + FastAPI Serving

- Day 1 learning complete
- Day 2 learning complete
- Day 3 learning complete
- Day 4 learning complete
- Day 5 learning complete
- Day 6 learning complete
- Weekend project complete
- Git push & repo structured

Week 21-22: Transformers + Experiment Tracking

- Day 1 learning complete
- Day 2 learning complete
- Day 3 learning complete
- Day 4 learning complete
- Day 5 learning complete
- Day 6 learning complete
- Weekend project complete
- Git push & repo structured

Week 23-24: RAG + Data Versioning

- Day 1 learning complete
- Day 2 learning complete
- Day 3 learning complete

- Day 4 learning complete
- Day 5 learning complete
- Day 6 learning complete
- Weekend project complete
- Git push & repo structured

Week 25-26: Advanced RAG + Cost Optimization

- Day 1 learning complete
- Day 2 learning complete
- Day 3 learning complete
- Day 4 learning complete
- Day 5 learning complete
- Day 6 learning complete
- Weekend project complete
- Git push & repo structured

Week 27-28: ML System Design + Scaling

- Day 1 learning complete
- Day 2 learning complete
- Day 3 learning complete
- Day 4 learning complete
- Day 5 learning complete
- Day 6 learning complete
- Weekend project complete
- Git push & repo structured

Week 29-30: Observability + Drift Detection

- Day 1 learning complete
- Day 2 learning complete
- Day 3 learning complete
- Day 4 learning complete
- Day 5 learning complete
- Day 6 learning complete
- Weekend project complete
- Git push & repo structured

Week 31-33: CI/CD + A/B Testing

- Day 1 learning complete
- Day 2 learning complete
- Day 3 learning complete
- Day 4 learning complete
- Day 5 learning complete
- Day 6 learning complete
- Weekend project complete
- Git push & repo structured

Week 34-36: Batch Pipelines + Feature Stores

- Day 1 learning complete
- Day 2 learning complete
- Day 3 learning complete
- Day 4 learning complete
- Day 5 learning complete
- Day 6 learning complete
- Weekend project complete
- Git push & repo structured

Week 37-38: Kafka Streaming + Terraform

- Day 1 learning complete
- Day 2 learning complete
- Day 3 learning complete
- Day 4 learning complete
- Day 5 learning complete
- Day 6 learning complete
- Weekend project complete
- Git push & repo structured

Week 39-40: Security + Interpretability

- Day 1 learning complete
- Day 2 learning complete
- Day 3 learning complete
- Day 4 learning complete
- Day 5 learning complete
- Day 6 learning complete
- Weekend project complete
- Git push & repo structured
